Introduction

ANOC

The Association of National Olympic Committees (ANOC) was established in June 1979 during the Constitutive General Assembly in San Juan, Puerto Rico. ANOC now represents the interests of 206 National Olympic Committees (NOCs) across the five Olympic continents. ANOC is administered from its headquarters in the Olympic Capital, Lausanne, where it has been based since June 2010.

ANOC strives to protect and promote the collective interests of the NOCs, delivering consistent, dedicated support and advocating on their behalf within the Olympic Family. ANOC also aims to strengthen the relationships between the NOCs and the Olympic Family for the benefit of the entire Olympic Movement.

The ANOC World Beach Games in San Diego

ANOC's vision was to develop a World Beach Games that would attract new audiences and provide a platform for NOCs to engage with millions of young people around the world.

The ANOC Events Working Group, established in December 2013 and chaired originally by the ANOC President, was tasked with developing the concept for the Games. The Working Group was supported by international experts and collaborated with the IOC, International Federations and other Olympic stakeholders to ensure the Games would be sustainable and bring widespread benefits to the Olympic Movement. Timothy Fok is the current chair of the ANOC Events Commission.

The ANOC World Beach Games will deliver elite sport that excites: a dynamic beach, action and water sports programme featuring prominent, world-class athletes brought together in one truly global festival for the very first time. The event will be built on a new, sustainable multisport model, with 100% temporary venues operating in harmony with the world's most captivating beach locations.

Ultimately, the ANOC World Beach Games aims to be the pinnacle of global excellence in beach, action and water sports, connecting new disciplines and new stars to a new generation of fans.

The inaugural ANOC World Beach Games: San Diego 2019

The inaugural edition of the ANOC World Beach Games will take place on Mission Beach in the city of San Diego, California, from 10-14 October 2019. At the ANOC General Assembly in Washington in 2015, San Diego was unanimously approved as the host city of the first ever edition of the ANOC World Beach Games which was set for 2017.

After extensive dialogue with NOCs and IFs, the ANOC Executive Council decided to move the inaugural edition of the Games to 2019 to ensure that NOCs and IFs had the optimum time to prepare their athletes for the event.

The ANOC World Beach Games San Diego 2019 will feature approximately 1,360 athletes from every Olympic continent. The sports programme comprises 14 fresh and dynamic sports with 16 disciplines in total:

- Triathlon – **Aquathlon**
- Basketball – **3X3**

- Handball – **Beach Handball**
- Karate – **Individual Kata**

The ANOC World Beach Games San Diego 2019 will take place at a single, integrated competition site at Mission Beach – located approximately 14km from downtown San Diego, on Southern California's beautiful Pacific coast. All competition venues will be temporary, with no permanent Games footprint. NOCs and their teams will be housed in hotel accommodation approximately 8.5km from the competition site.

The Games is expected to attract approximately 40,000 fans each day, with world-class sports competition staged alongside an international music, culture and entertainment festival. The event will also be broadcast live around the world via digital and traditional broadcast channels. Participants will be able to enjoy the attractions that make San Diego one of the world's top tourist destinations, from the stunning natural beauty of the Southern California coastline to renowned destinations like Sea World, the Gas Lamp District and San Diego Zoo.

WATERSKI

The top four (4) ranked men/women are automatically selected and then the next eight (8) athletes are selected using the last approved World Rankings List. The top athletes would not be considered in the one per country restriction but their countries would be considered. For example, if the top four (4) athletes were from France, the USA, Canada and France, then skiers from France, the USA and Canada have been selected but there would be two (2) skiers from France allowed.

Once the top 10 are selected, the 11th and 12th would either be the next athlete on the list or a substitute to provide Confederation representation. If athletes decline to participate, a substitution is required. The method used is:

- If an athlete declines then he/she can be replaced by an athlete from the same country as long as that athlete is rated higher than the lowest ranked athlete in the event, with the exception that the lowest ranked athlete does not include athletes selected as substitutes for Confederation representation
- If that is not the case, then the next athlete on the original list is selected

HOST COUNTRY PLACES
