5. Letter of Commitment

To the Executive Secretary of the
United Nations Framework Convention on Climate Change (UNFCCC) secretariat
Bonn, Germany

Recognizing the critical need for cities, regions, companies and investors from around the globe to help implement the Paris Agreement and accelerate the transformative change needed to reach greenhouse gas (GHG) emission neutrality (i.e. climate neutrality) in the second half of the twenty-first century, I am pleased to confirm that [Organization] supports the vision outlined in the Sports for Climate Action Declaration.

With this communication, we express our intent to implement the principles enshrined in the Sports for Climate Action Framework and commit to working collaboratively with our peers and relevant stakeholders to develop, implement and enhance the climate action agenda in sports.

[Organisation] will communicate this commitment to our stakeholders and the general public and will report publicly on progress.

Yours Sincerely

The Platform

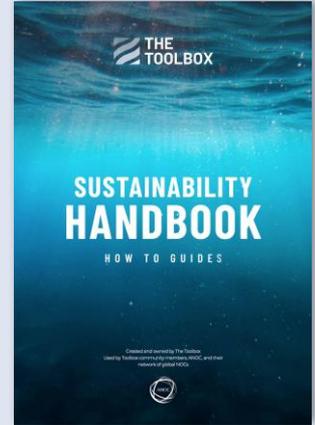

WELCOME TO THE TOOLBOX

A suite of guides, tools and templates created by **11th Hour Racing Team** for the purpose of establishing a sustainability program within any organization, no matter the size or industry sector.

[EXPLORE THE TOOLS](#)

[REGISTER NOW](#)

A community for the transition to sustainability.

The Toolbox was created to help make sustainability more accessible, based on the ethos that 'when we share, everyone wins.' The value of The Toolbox is the community that creates, uses and maintains it.

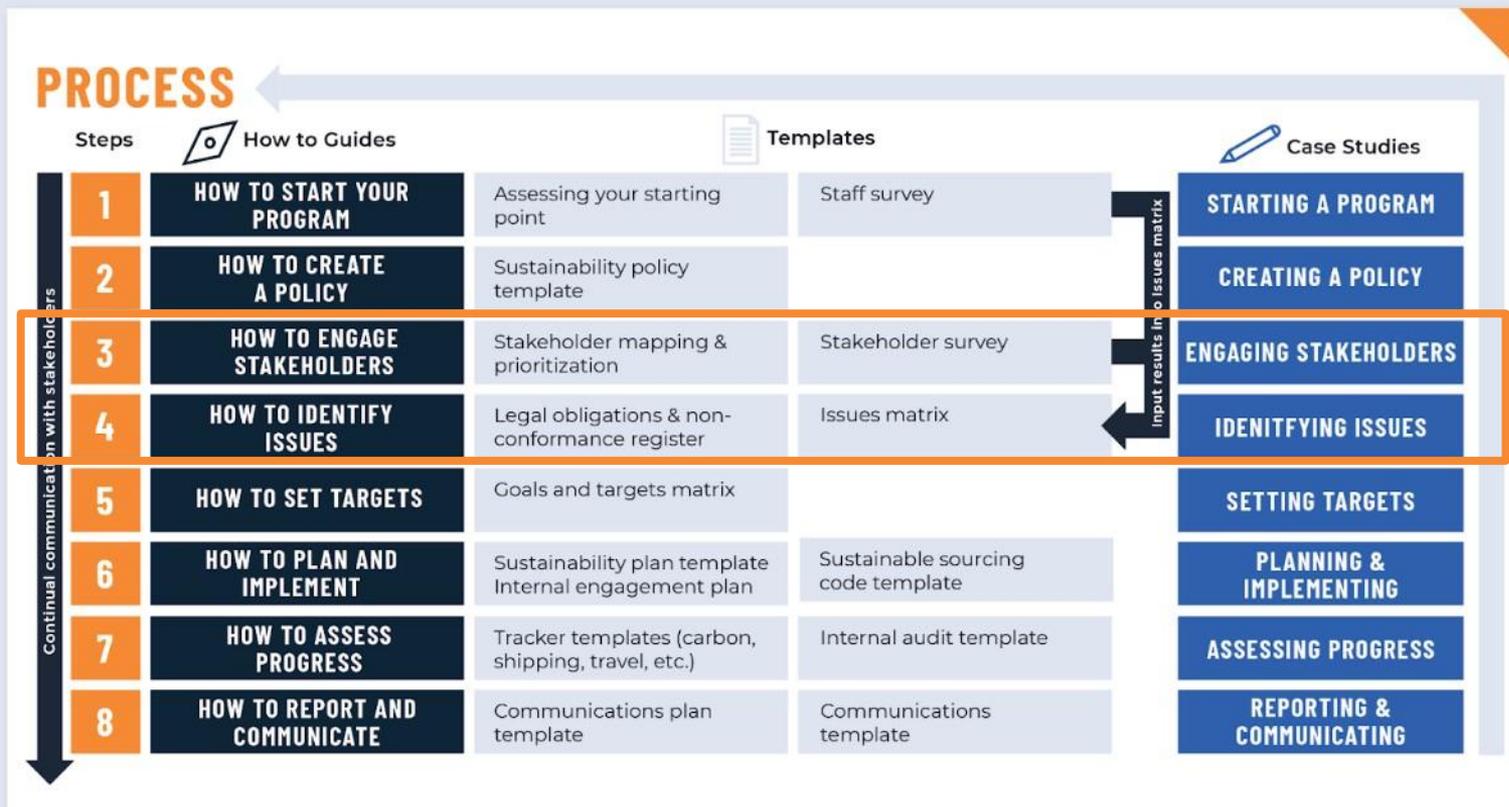

HOW IT WORKS

We know that the sustainable transition is mission critical, but it is easy to be overwhelmed with the scale of the challenge and where to even begin.

The purpose of the framework is to empower teams and organizations with a set of tools to enable them to join the movement towards a just and sustainable future.

The Process

Who do you work with to succeed?

Step 3: Quick Guide

HOW TO:

ENGAGE WITH STAKEHOLDERS ON SUSTAINABILITY

STAKEHOLDER = A person or organization that can effect, be affected by, or perceive themselves to be affected by your decisions or activity.

1. IDENTIFY

Visually map out your identified stakeholders, looking at groups/individuals your activities impact internally and externally.

2. PRIORITIZE

List out your stakeholders prioritizing them based on level of importance to and influence on your organization.

3. ENGAGE

Connect with stakeholders in a discovery consultation.

4. ESTABLISH AN ACTION PLAN

- Set up a tracker to capture ongoing feedback, issues or opportunities.
- Demonstrate to your stakeholders how you are addressing common issues.
- Define joint initiatives, set targets and deliver!

TOP TIP

"Let them lead the conversation. It's important to provide a listening platform to hear and record their perspectives."

- Damian Foxall, Sustainability Program Manager

ENGAGE WITH STAKEHOLDERS

Created by the Blue Racing Team for the benefit of all those concerned by the need to make our world a better place for all. This is a free resource for any organization, whether you are a not-for-profit or a for-profit.

While every effort will be made to ensure the accuracy of the content of this booklet, we accept no liability for any errors or omissions. It is for the user's discretion to check the accuracy of the content before using it for any purpose.

INTRO

Continuing working and engaging with stakeholders is fundamental to all stages of the business strategy.

HOW TO GET A STAKEHOLDER FEEDBACK on a project or program is essential for your organization and can be a valuable tool to improve your organization's performance.

A QUICK GUIDE

1. IDENTIFY - Identify and map out your stakeholders, looking at groups/individuals your activities impact internally and externally.

2. PRIORITIZE - List out your stakeholders prioritizing them based on level of importance to and influence on your organization.

CASE STUDY

ENGAGING STAKEHOLDERS

The support of the Blue Racing Team's Sustainability Program has been a key factor in the success of our sustainability program. This case study supports a 10-step engagement process.

INTRODUCTION

Engaging both internal and external stakeholders is a key to the success of any sustainability plan. Getting buy-in from all concerned parties is essential for long lasting change.

STEP 1: IDENTIFY AND MAP STAKEHOLDERS

At the Blue Racing Team we needed to ensure we were engaging our stakeholders in the right places.

THE RESULTS

- 100% of stakeholders identified
- 100% of stakeholders mapped
- 100% of stakeholders engaged

THE RESULTS

- 100% of stakeholders identified
- 100% of stakeholders mapped
- 100% of stakeholders engaged

TEMPLATE | STAKEHOLDER MAPPING

USER LOGO

A stakeholder is a person or organization that can effect, be affected by, or perceive themselves to be affected by an organization's activities or decisions. These should include suppliers, distributors, customers, local communities, shareholders, governing bodies, etc.

Put together a full inventory of your stakeholders, and visually map them within the boundaries of your sustainability plan. You should group and map stakeholders in a way that makes sense for your organization.

Instructions: List your stakeholders and allocate a group. You can change the group names in the table. Then, add your stakeholders to their group on the map. Once done, save, export and print the map using the values in the table.

Step 3 Templates

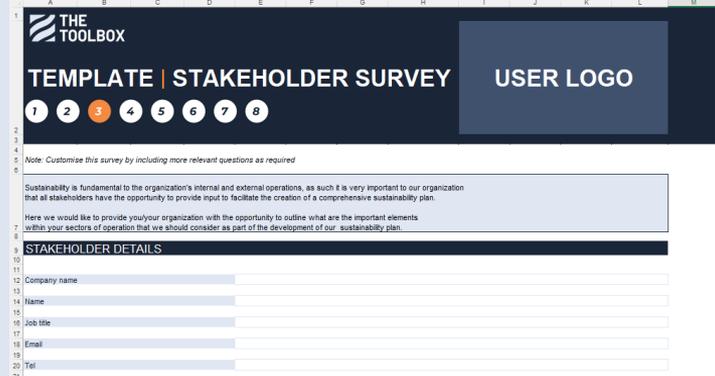

In the Stakeholder Mapping template you will

- Map out and categorise all of your stakeholders
- Prioritize by importance and influence
- Log results from the stakeholder survey
- Track engagements and conversations with your stakeholders

Contributes towards:

All Steps - Particularly 4,5 and 6

Gather Information and data from your stakeholders to ensuring all voices are heard.

- Build up a profile for each stakeholder
- Explore a Stakeholder's issues and sustainability priorities
- Generate ideas on initiatives to take action

Introduction

This matrix will identify the issues that are relevant to your organization. Start by listing your activities, and the sustainability development issues that might arise as a result (column A and B). Consider which risks and opportunities your organization might face (column C and D). Prioritize these issues based on the factors in columns E and F. Use your stakeholder engagement feedback to help you rank the risk and the importance. Don't forget to continue to engage stakeholders throughout the Toolbox process.

Definition

Issue: The broadest of which sustainability issues become sufficiently important that they should be addressed and reported on.

Risk: A sustainability-related factor that could occur as a result of the organization's activities, likely to affect goals and expectations.

Use the criteria definitions on the 'Toolbox' tab to help you rate likelihood.

ENGAGING STAKEHOLDERS

INTRODUCTION

Engaging with stakeholders is a key part of the 100 Hour Rating process. It helps you to understand the needs and expectations of those who are affected by your organization's activities and to ensure that you are taking account of their views in your sustainability plan.

STEP 1: IDENTIFY AND MAP STAKEHOLDERS

Identify the stakeholders who are affected by your organization's activities and map them according to their influence and interest.

STAKEHOLDERS

Internal: Employees, Managers, Board, Shareholders, Customers, Suppliers, Trade Unions, etc.

External: Government, Regulators, Local Communities, Media, etc.
